

Delicate and well-turned appearance from GERMAN design. Powered by electrical motor for CB-3000; Manual for CB-230

CB-3000 (Electrical)

Plastic Comb Binding Machine

(International Patented)

Electrical motor, 25-30 sheets punch capacity for both 21 and 4 holes, binding up to 51mm comb, over-size design allows wider paper entry give commercial comb binding users the easy way and best performance of documentary presentation. Enjoying the expectable work success is just started from working with CB-3000.

1.Available for oversized comb binder 2.Dual punching system both for 21 holes & 4 holes 3.Up to 42 holes punch & bind 4.The unique design of single cutting plate

- 1. Separate operation for punching and comb binding.
- 2.Available for over-size punch and bind.
- 3.Double blades for 21 and 4 holes punch.
- 4. Margin depth adjustable.
- 5. Multi-national patents and international certificates.
- 6.Powered by electrical motor for CB-3000; Manual for CB-230

Specification Data

Model	CB-3000	CB-230
Operating Mode	Electrical	Manual
Paper format accept	A4, LTR... Max. to 420mm	A4, LTR... Max. to 420mm
Punching depth	2 steps adjustable for plastic comb (2.5mm/4.5mm)	2 steps adjustable for plastic comb (2.5mm/4.5mm)
Punching capacity	25 sheets/80gsm paper 2 sheets/PVC 0.20mm	20 sheets/80gsm paper 2 sheets/PVC 0.20mm
Binding capacity	6mm-51mm (500pages)	6mm-51mm (500pages)
Loading of paper	Vertical	Vertical
Edge guide	Adjustable at A4, LTR, A3, B4	Adjustable at Legal, A4, LTR, A3
Weight	16.8 kgs	12.3 kgs
Machine Dimension	440*530*195 mm (BxDxH)	440*480*180mm (BxDxH)
