

Trans-Kote / **EXB**

THERMAL LAMINATING FILM

Premium grade polyester, nylon and polypropylene-base film with superior polyethylene, proprietary thermal adhesive formulated for adhesion to fuser oil inks and other digital prints. Exceptional adhesion to digital prints provides a greater range of uses and applications. Its unique formulation give excellent bond to fresh prints right to post press, without delay.

Characteristics:

Specifically designed to adhere to fuser oil inks Superior abrasion resistance Water, oil, acid and alkali resistant Excellent alternative to PSA film Easy to apply

Applications:

Compatible with Xerox Conventional Toner Digital Machines C1618, DC 1250 / 1256, DC 2045 / 2060 / 5252 / 6060, DC 7000 / 8000 & iGen

Trans-Kote® EXB Laminating Film

Available in gloss and matte finishes High clarity laminating film (polyester and nylon).

Enhances overall colour and appearance of graphics. Can be die-cut

The logo for Gray Laminating Supplies (GLS) features the letters 'GLS' in a large, bold, stylized font. The 'G' and 'L' are white with a black outline, while the 'S' is solid black. The letters are set against a dark background.
